WARNINGS.

(By the Associated Press)
Durant, May 24.—Durant was visited by the Knights of Liberty last night. The Knights held up a city policeman, taking his keys to the city jail, and took from the jail "Red" Scott, held on vagrancy charges, tied him to a tree in the court house yard and whipped him. Warning to loaf-

ers, vagrants and thugs, was posted above his head, signed by the Knights of Liberty with skull and crossbones beneath.

BIG EVENT OF SEASON

Build Now---Or Wait Ten Years

If you contemplate building a home any time soon, you had better DO IT NOW, because building material, though now somewhat higher than two years ago, will advance to still higher levels when the war is over. At that time half of the world will have to be rebuilt and material will be in much greater demand for many years. BUILD NOW, while you can get the stuff. We'll get the money for you. GERMANS READY TO MOVE AGAIN

ALLIES CONFIDENT OF ABILITY
TO HOLD. AIRMEN HURT-
ING TEUTONS.

(By the Associated Press)
Heavy fighting operations on the western front are still in the anticipation stage, but the Germans are known to have completed preparations for a renewed offensive and the allies are confident in their ability to meet it. Air raids into Germany continue and allied aircraft have again visited Mannheim on the Rhine where two fires were caused. Infantry operations and artillery firing are at a minimum along the whole front from Switzerland to the North sea. Activity on the American sector has been below normal. Italy began today her third year of war with the enemy still withholding her much heralded offensive.

German Divisions Rebel.
Washington, May 24.—A German division at Divinsk, Russia, which was ordered from the east to the western front, refused to proceed, and fifty soldiers were executed and one thousand imprisoned, according to Russian wireless dispatches today to the state department. Other German divisions in the same vicinity held demonstrations in favor of rebellion.

French Raid Boches.
Paris, May 24.—French troops last night carried out raids along all parts of the front, notably southeast of Coucy, Aisne front, in which prisoners were taken, says today's official statement. Intermittent shelling occurred at several places.

Germans Take Prisoners.
London, May 24.—As result of enemy raid north of Hill Seventy yesterday, several British soldiers are missing, says the official statement. Enemy raids last night in the Aveluy wood were driven off.

Big Army Increase Coming.
Washington, May 24.—The senate military affairs committee today reported favorably, by unanimous vote, on the resolution of Senator Reed, of Missouri, declaring for an increase of three million men in the American army.

Today's Casualty List.
Washington, May 24.—Today's army casualty list contained forty-four names, which are divided as follows: Killed in action, four; died of wounds, nine; died of accident, four; died of disease, ten; wounded severely, sixteen; wounded slightly, one.

GRADUATING CLASS OF GRAMMAR GRADES

The annual graduating exercises of the grammar grades of the city schools were held Thursday evening in the Methodist church and were largely attended. The program follows:

Invocation—Rev. C. B. James.
Irving Chorus, "Sunshine"—Moore.
Reading—Violet Moore.
South Ward Sextet, "Violet Lady"—Redman.

Address to Class—Rev. Geo. W. Beck.
Vocal Solo—Rev. W. M. Crutchfield.
Presentation of diplomas—L. T. Walters.
Willard Chorus, "Stars Brightly Shining"—Bronte.

The address of Rev. Geo. W. Beck was a splendid presentation of the educational conditions that exist at this time. He urged those who were entering the high school to remember that the future of the country rested upon them, and that under no circumstances should they refuse to continue their education if they wished to be considered patriotic, and help make the world safe for democracy. President L. T. Walters presented the diplomas to the graduates.

The following are the names of those who received diplomas:
Eighth Grade Graduates.
Irving School—Ted Davis, Aughtie Johnson, Cleo Lowery, Sarah Dagg, Amy McDaniels, Orbie Yancy.

A CALL FOR FARM LABOR
LET EVERYBODY REGISTER
B. H. Frick, chairman of the Farm Labor Bureau, is anxious that all persons who will aid in relieving farm labor shortage report and register at once. The Bureau must know as soon as possible those who can help, so that plans can be made to meet every condition that may arise in the future. Don't slack, friends, but register.

BOY MURDERED IN CAPITAL CITY

MYSTERY SURROUNDS KILLING
OF FOURTEEN YEAR OLD
BOY.

(By the Associated Press)
Oklahoma City, May 24.—Driving up to the emergency hospital early this morning, a party of autoists deposited a fourteen-year-old boy, bleeding from gunshot wounds, upon hospital steps, and threw a brick through the window to attract attention, and then drove away. The boy was identified by the police as Peter Hopkins. He died shortly before daylight. The motive for shooting as well as the identity of the auto party, is still a mystery.

U. S. AVIATORS DEFEND PARIS

AGREEMENT REACHED TODAY
TO PUT OUR AIRMEN OVER
FRENCH CAPITAL.

(By the Associated Press)
Paris, May 24.—An American escadrille composed of aviators chosen from among the best American pilots in the future will help to defend Paris against enemy air raids, according to official announcement, which says the offer was made some time ago and accepted by the French government through M. Dumensnil, minister of aviation. Final arrangements were concluded today.

TEXAS FARMER HAD SUFFERED 21 YEARS

"I Have at Last Found Something
That Has Put an End to My
Troubles," He Says.

"For twenty-one years I suffered with catarrh of the stomach and after trying nearly every medicine I knew of without getting relief I have at last found something that has put an end to my troubles and feel that I ought to tell what it is," said E. L. Hare, a well known farmer of Vernon, Texas, in relating the other day the story of his recent recovery through the use of Tanlac, to T. M. Ferguson, the well known druggist of that place.

"I had no appetite and the little I forced down formed gas that swelled me until I was miserable night and day. At times I would get so nauseated that I could hardly retain a thing on my stomach and I was so nervous I slept but little and got hardly any rest, though I had to lie in bed a good deal on account of weakness."

"I heard so much about Tanlac I decided to give it a trial. After I had taken a bottle or so I felt so much better that I kept it up till now my appetite has returned and I can eat anything I want without any trouble. My digestion is all right, my nerves are quiet and I sleep like a log. I have regained my strength so I can work about my place and feel better in every way than I have in years. Tanlac certainly fixed me up in fine shape and I will gladly recommend Tanlac to people with troubles like I had."

Tanlac is sold in Ada by Gwin & Mays Drug Company, and by leading druggists and dealers everywhere. Adv.

LLOYD GEORGE MAKES COMMENT

BRITISH PREMIER IS OPTIMISTIC
AS TO OUTCOME OF GER-
MAN DRIVE.

(By the Associated Press)
Edinburgh, Scotland, May 24.—We are on the eve of a great German attack," said Premier Lloyd George in an address here today. "Those who know the prospects feel most confident about the result. In April, the Premier said, 'the shipping output for the first time exceeded losses and added that the admiralty considered the anti-submarine campaign progressing most satisfactorily. The next few weeks will be a race between Hindenburg and President Wilson, and the Germans straining every muscle to reach the goal first, on the eve of American assistance becoming available for the allies.'"

TEBEAU'S DEATH RECALLS OLD BASEBALL DAYS

St. Louis, May 21.—Baseball's old guard lost one of its staunchest warriors when Oliver P. ("Pat") Tebeau, following a protracted illness, recently shot and killed himself here. He belonged to the old school of players whose fighting spirit overshadowed their playing abilities. In his day the winning player frequently was the one with the widest vocabulary and the best umpire was the one with the hardest fist. Games in his days were sometimes merely occasions for fights and runs were made only by sturdy men who fought their way around the bases with tongue, fist and spike.

Tebeau was a product of the sandlot diamonds in St. Louis. His first professional engagement was with Jacksonville, Ill., in 1885. A year later he went to the St. Joseph, Mo., club in the Western Association, playing second base. In 1887 he was transferred to Denver in the same league and his stellar work caused him to be signed by the Chicago White Stockings of which "Cap" Anson was the manager. He played third base with club. The following year he was signed by the Minneapolis team of the Western Association and when that club disbanded he joined the Omaha club. About this time Cleveland in the National League was casting about for players and he was signed. At the end of the season of 1889 the Brotherhood revolt came and Tebeau was assigned to Cleveland in the Players' League. When the baseball war was declared off he was signed to captain the Cleveland Nationals and later was made manager and first baseman of the team. After several years of successes the franchise was moved to St. Louis in 1899 and Tebeau came here as manager of the St. Louis Nationals, but in the middle of the season next year he quit and devoted himself to business.

Tebeau's death caused his "old guard" friends here to indulge in reminiscences. Bobby Wallace, who, at the age of 42, is still with the Cardinals club as a shortstop, described Tebeau as a royal roughneck on the ball field; an unquestioned friend and an uncompromising enemy. Wallace also admits that it was Tebeau who convinced him that he was not a pitcher and set him to work as an infielder on the old Cleveland club.

"Pat was a hard loser," Wallace said. "If his club dropped a close one the veins in his neck stood out and it was well for no one to cross him. I remember one day in Philadelphia after we had lost by one run a small boy approached Pat and asked him for his glove. Every one expected to see the boy receive a severe thrashing. Instead Tebeau gave the boy his glove, then in a moment of combined pique and generosity gave the lad all the old balls he could find, another glove and finally his shoes. He explained that he might as well give them away for he was doing no good with them."

Tebeau also credited with having once put an umpire off the field. In a game with Chicago, Lynch, the umpire, called a close decision at first base. Tebeau protested and was voluble in his abuse. Lynch ordered him off the field. Pat's answer was to walk up to the umpire and stick his chin into Lynch's face and say, "You get off the field yourself or you'll go to the hospital in a hurry." was aPT's edict. The umpire quickly decided that he "didn't care to umpire for a bunch of hoodlums," and left the park.

Jack Powell, veteran pitcher who is attempting a comeback with the Browns this year, tells of an occasion when Tebeau looked with superstition on a bouquet of flowers and barred floral pieces from the field.

"Cy Young had shut out Baltimore in the first game of a critical series and I blanked them in the second," says Powell. "There was a near riot after each game and the police escorted us to our hotel. On the third day a hundred police ringed around the field. Everything went fine for five innings and we were out in front 6 to 0. 'Cupid' Childs, our second baseman, lived in Baltimore and in the sixth inning was given a huge bouquet. In the same inning the Orioles pushed over eight runs. When the inning was over Tebeau grabbed the flowers and heaved them into the stands. 'Nobody on this club will ever get any flowers so long as I am boss,' he bellowed. And they never did."

Tebeau lived to see ball players who said "air" to an umpire and teams who could win without committing assault and battery. During his time the game was cleansed, formaldehyde, uplifted and "knot-holed." His death marked the passing of the militant type of player of whom there are few left.

GERMAN DISCONTINUED IN STATE NORMALS

My Dear Superintendent:
I desire to call your attention to what seems to me to be a matter of great concern to all the schools at this time. As you will know, we have discontinued the teaching of the Ger-

man language in all the state schools. So far as I have been able to learn there will not be a high school in the state of Oklahoma that will teach the German language when school opens next September.

The State Board of Education has appointed a committee to examine and report on any German propaganda that may be found in any text books now in use in the schools. At our last meeting the Board accepted substitutes for the objectionable parts of the text book, The History of the Old World, with the understanding that the company take up all outstanding books now in use at even exchange.

In our school libraries it is quite possible that books and magazines have been purchased which contain chapters and stories, and possibly volumes, that can properly be construed as German propaganda. At the time these books and magazines were purchased no one suspected their purposes or the insidious methods by which the German propaganda was being imposed upon our educational

system. To what extent these books and magazines have been bought, I have no way of knowing and the only way by which we can know and rid our libraries of this kind of literature is to make a careful invoice of all the libraries in the colleges and the public schools. I therefore request you to take up this matter immediately and rid your library of any magazines, text books, or any other literature bearing German propaganda.

Next fall the State Board of Education will require every teacher who draws public money to subscribe to an oath that he will uphold the constitution of the United States and the State of Oklahoma, and that he will teach patriotism. A policy of this kind will be inconsistent if we still have volumes of German propaganda stored in our libraries. All German literature should be removed, first, because it inculcates German ideals; second, because its teaching is contrary to fundamental American doctrine. Where such dangerous matter occupies only a page or two, I suggest that the pages be cut out of the book. In the case of a German book, or a German text, the entire book should be destroyed. It seems to me that all of this literature in the public and private libraries and in the school libraries of the state should be collected and that the Fourth Day of July would be a most suitable time to destroy such literature by a bonfire with proper ceremony. Yours sincerely,

R. H. WILSON
State Superintendent of Public Instruction.

ALLEY AND SIDEWALK RUBBISH—GOOD-NIGHT
Work on cleaning the alleys in the business section of the city is progressing rapidly, and already fully two-thirds of the district has been made clean. The work of cleaning still progresses with the hope that Ada will soon become one of the cleanest cities in the state.

A FIRELESS COOKER IS UNNECESSARY

The Regulator wheel is marked in degrees and the ordinary terms of baking; any child can understand it.

By a slight turn of the wheel you obtain any oven heat you desire—cuts out the guess work.

By setting the wheel at "very slow" you can obtain better results than with the best fireless cooker. You can cook a whole meal at one time in the oven without watching.

"The conservation of Our Food Supply is absolutely essential"—why not help in this patriotic work by equipping your kitchen with a **Direct Action Gas Range** with "Lorain" Oven Heat Regulator that

- Conserves your food
- Conserves your gas
- Conserves your time
- Conserves your labor

THE OVEN HEAT REGULATOR

CONSERVES YOUR FOOD for you never spoil any bakings composed of high priced materials because of faulty oven regulation. The Regulator enables you to select any oven temperature you desire and will maintain that temperature for an indefinite period. You always obtain perfect results—no more lucky or unlucky days.

CONSERVES YOUR GAS by enabling you to obtain the exact temperature you desire each time you bake. You do not over heat the oven and thus waste gas. The tendency of all cooks is to use too much gas. This is because of lack of a simple and accurate device with which to measure the oven heat.

CONSERVES YOUR TIME because it eliminates all "pot watching." Knowing that your oven temperature MUST BE RIGHT, you can go about your other work as you do not have to stop and watch the baking.

CONSERVES YOUR LABOR because the Regulator enables you to cook a whole meal, including roast, vegetables and dessert, at one time in the oven while you enjoy the afternoons off. You can prepare the entire meal in forty-five minutes, then allow the Regulator to cook the meal for hours while you are away, knowing that it will produce delicious results with the toughest roast so tender it can be served with a spoon.

Call at our store and see the Regulator demonstrated and receive a booklet describing how to cook eight different menus while you spend your new found afternoons of liberty at the Red Cross.

DR. WILEY SUGGESTS ELECTRIC FAN FOR BABY

This authority on food and health, discussing in Good Housekeeping, means for reducing infant mortality, said:

"... the fan is an excellent apparatus for mitigating the suffering from heat. Air in motion carries away rapidly from the body, heat that it absorbs or that is radiated into it. No cooling process of this kind can diminish the natural warmth of the body, but it can minimize the discomfort that the infant must endure from stagnant air. It is well that the current of the fan be not directly on the infant's body, but over it or to one side."

Have an Emerson Fan in every room for real convenience and comfort.

IMPORTANT FOOD REGULATIONS

JUDGE BUSBY ISSUES NEW BULLETIN ON FOOD CONSERVATION.

Several important features relative to the conservation of food is found in the bulletin just issued from the office of Food Administrator Busby. We clip the following:

Baking of Pies—The Food Administration does not discourage the baking of pies, but does ask that pie crust be made, largely, of wheat flour substitutes. The promiscuous baking of cake where wheat flour altogether is used, should be discouraged. Very few cakes should be baked unless substitutes can be used for the wheat flour.

Ice Cream—The Food Administration does not discourage the making of ice cream, as ice cream is a food in itself, and is important in view of its relation to the milk industry.

Culinary Rule—The rule prohibiting the killing of hens was terminated on April 20th. The Food Administration earnestly encourages the consumption of poultry, eggs and vegetables instead of beef and pork.

Home Canning—The Food Administration encourages home canning in order that perishable food may be saved this summer to be eaten in the place of meats next winter.

New Business—The Food Administration does not wish to encourage new confectionery enterprises, or any new enterprises requiring sugar.

Surgeons agree that in cases of Cuts, Burns, Bruises and Wounds, the FIRST TREATMENT is most important. When an EFFICIENT antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, BORAZONE is the IDEAL ANTISEPTIC and HEALING AGENT. Buy it now and be ready for an emergency. Price 25c, 50c, \$1.00 and \$1.50. Sold by Bart Smith.

INSIDE STORY OF THE WAR IN GERMAN FILM

When on October 25, 1915, the Kaiser shook his fist in the face of Ambassador James W. Gerard and told him that after the war was ended he would stand no nonsense from the United States, he did not realize that the patience of the Americans would soon reach the breaking point.

The whole series of incidents, the plot and intrigue, the broken promises, the deliberate disregard of all the rights of a friendly nation in the insane desire to rule the world is clearly shown in the wonderfully vivid motion picture reproduction of Mr. Gerard's book, "My Four Years in Germany."

Here you see history before you the whole story of the Zaber incident to the gathering of the American Army over there.

Every American should see this picture so that he can better understand why America must stand united against this common foe.

The picture will be shown at the Majestic theatre on Friday and Saturday, at M24 and 25.

GALLANT CANADIAN SPEAKS AT NORMAL TONIGHT

Sergeant W. J. Bennett, who will address the citizens of Ada tonight at the Normal auditorium, has a splendid record as a soldier. He spent nine months in the trenches and received a medal for bravery. He was at the battle of Ypres and witnessed the crucifixion of a British colonel by the Huns, and was also at the battle of the Somme where the Huns first used gas before the gas mask had been developed. Other interesting phases of his experience will be told. Our people should not fail to hear this gallant Canadian and give him a warm welcome.

Dizziness, vertigo, (blind staggers) shallow complexion, flatulence are symptoms of a torpid liver. No one can feel well while the liver is inactive. HERBINE is a powerful liver stimulant. A dose or two will cause all bilious symptoms to disappear. Try it. Price 60c. Sold by Bart Smith.

TO-DAY LIBERTY TO-DAY

'A Mother's Sin'

A true story of a young man's struggle and how he lost, yet won.

MEMORIAL DAY

A Tribute to the Heroes
of the Past and Present

A GREAT privilege is being conferred upon us who live to-day. A privilege that seldom comes in a nation's history and people's lives—the opportunity to honor the heroes of the past, the present and the future.

IN this world struggle for liberty, we see the glorious history and traditions that have made America the land of democracy and freedom in vivid and pulsing reality. We see reincarnated the spirit that inspired American men in such immortal chapters of history as Valley Forge, the Alamo, San Juan, Manila Bay and others almost innumerable.

SOME of us have gone, others are going—all must serve. And we who remain here must serve to the best of our ability. The greatest sacrifice we can make is insignificant, compared to what those boys "Over There" are going through in order that "the government of the people, by the people and for the people shall not perish from the earth."

REMEMBER this, friends, when you are asked to buy Liberty Bonds or War Saving Stamps, to save food-stuffs, or to contribute to any worthy war causes.
